

Young Shire Council

A Statement of Environmental Effects (SEE) is a report outlining the likely impacts of your proposal, and the proposed measures that will mitigate those impacts. A SEE includes written information about the proposal that cannot be readily shown on your plans and drawings.

The *Environmental Planning & Assessment Regulations, 2000* (Schedule 1), stipulates that a development application **MUST** be accompanied by a SEE, and also requires that the SEE must indicate the following matters:

- (a) the environmental impacts of the development,
- (b) how the environmental impacts of the development have been identified,
- (c) the steps taken to protect the environment or to lessen the expected harm to the environment,
- (d) any matters required to be indicated by any guidelines issued by the Director-General.

In some instances, only a very brief SEE may be required, for minor types of developments, where the impacts are likely to be negligible. Accordingly, the attached SEE template has been prepared, which can be completed and lodged with an application for the following type of development:

RURAL DWELLINGS IN THE RU1, RU4 & E3 ZONES (INCLUDING ALTERATIONS AND ADDITIONS)

STATEMENT OF ENVIRONMENTAL EFFECTS

Whilst the use of this SEE template is not mandatory, it will assist in addressing all the relevant and required information. If this template is not used, your development application will still need to be accompanied by a SEE. Appendix G of the Young DCP, will assist you in considering all potential impacts of your development, and in preparing a SEE.
