

Young Shire Road Condition Update

Date of Update: Monday 5th March

Time of Update: 16.00hrs

The heavy rainfall in Young Shire has resulted in all creeks and waterways flowing full. Any further rain showers will result in water over roads at causeways and low lying areas. It is not possible for Council to advise of these sudden changes in road conditions.

Drivers are to exercise due caution in using the road network. Avoid travel if possible. Don't drive through floodwater.
